

Emerge for Parents is now called Groupcall Xpressions

Groupcall Emerge for Parents has changed. You may have already noticed!

Groupcall Emerge for Parents is now called **Groupcall Xpressions**. Depending on the systems the school uses, **Groupcall Xpressions** will display information about your child's progress and events, as well as enable you to receive free messages sent by the school. You will still be able to access the same information you have always done.

The main difference you will notice is the Xpressions Timeline showing messages and notification for a variety of different events and various sources, giving you a single app to view everything your child is doing at school (please see below).

To continue using these features you will need to update the Groupcall Emerge for Parents app on your iOS or Android device when prompted. When you do, the app will now be called **Groupcall Xpressions** and once upgraded you will be able to continue using the service without interruption.

You can continue to log in using the same username and password you created previously and later this year you will be able to log in using your email address and mobile phone number, meaning you have one less username/password to remember! We'll let you know when this is available to you.
